Dear Andrew,

When Kofi came to me needing equipment for a new business that was unrelated to his existing business, I knew his business finances generally, as well as for both enterprises, was going to get MUCH more complicated. It was at that point that I knew that you and Rockridge Financial Services were just what he was going to be looking for, before he even knew.

It didn't even matter that he didn't think about the financial controls or tax implications of what he was doing in both businesses, because I knew that you would. Your knowledge and expertise really helps my clients sleep better at night and I know they are in a better financial condition to sustain their growth after they work with you.

Knowing how much you put into working for your clients helps me sleep better at night too and you help make me look good in the process. It makes my job easier to have a valuable resource like Rockridge Financial to recommend to my clients and knowing they will be in better financial shape means they can continue to be my clients for a longer period as well. Thanks for all your hard work on behalf of my clients.

Sincerely,

Stu Lustman
