Re: Endorsement

Dear Jon:

This letter is to thank you for your time and hard work not only in auditing my home for its energy efficiency, or lack thereof, but also in taking the time to explain your findings and the feasible solutions.

As you know, I possess neither the time nor the skill to begin doing what you do. You went around the outside of the house, you went into each of the various rooms in the house, and you went throughout the entire attic taking pictures and notes of all of your findings. You then took the time to discuss with me your findings while looking at all of the pictures you took in and around the house. Moreover, you sent written reports with a prioritized plan and recommendations, all of which my wife and I certainly appreciated. Granted, we only had the visual audit, but I now see how every house and homeowner can benefit from your audits and the efficient energy solutions that you provide.

I look forward to finding and realizing more opportunities to refer you clients who need your services and efficient energy solutions.

Thank you again for your good work.

With best wishes and kindest regards, I am

Sincerely yours,

J. Marc Replogle
