Paul Shimek III
216 Alexander Street
Marietta, Georgia 30060

Dear Paul:

I want to personally thank you for the personalized care you gave my daughter while representing her against the two insurance companies involved in her automobile accident.

I find it very refreshing to associate with an attorney having your morals and ethics. I always felt that you were working towards an equitable settlement that was fair and just. I found that your expertise in what we could claim was excellent and helped my daughter recover for actual damages incurred. The fact that you have been helping represent people in negotiating a fair settlement for 14 years was apparent. You took the time to explain to us what the protocol was for negotiating a settlement and when you could actually start the negotiating process with the insurance companies. It was interesting to learn that there was an additional value of the further depreciation on her vehicle even though it was repaired.

When the time came for negotiation it was a relatively short time until my daughter was able to get a decent settlement and get back to her life. The settlement allowed for her to pay all of her expenses incurred from the collision and gave her some additional compensation, which will help her in acquiring a new vehicle.

Paul, you are one of the best at your job. I will not have any hesitation in referring anyone, that walks into my office or that I know, to you for assistance in any personal injury matter.

Sincerely,

Barry C. Reade, DC, CCEP
