December 19, 2007

Dear Sam,

Thanks so much for taking care of us and our computer needs. When our main production computer went down, I knew we could count on you to get us running again. We were very happy with your services, the speed of your services and the cost was very competitive. You not only fixed our problem but also educated us on a few things while you were here. We can't thank you enough!

Sincerely,

A handwritten signature in black ink, appearing to read "BP", with a large, sweeping flourish at the end.
