

August 9, 2011

Dear Chris,

With deep appreciation for your creative design expertise and responsive, personalized client service, I now have an enhanced professional image along with enhanced marketing materials. I had a vision to update, expand, and unify my print and digital communications, and you took them all to the next level of quality.

I am thrilled with the way you refreshed my logo and tagline. They are now consistently recognizable and coordinated across various formats: business card, note card stationary, note pad, letterhead, and PowerPoint template.

You took time to understand my marketing needs, answered my questions every step of the way, and always presented multiple options for consideration. I also appreciated your professionalism and respect for my budget when you redirected some of my “what ifs” that started to have a life of their own.

I highly recommend you to anyone who needs branding or design work of any kind for their business.

Kind regards,

Randi
